

Construction Notification Bulletin

December 9, 2008

Traffic pattern change scheduled to begin December 12, 2008 (postponed)

Due to weather, the traffic pattern change originally scheduled to begin on December 12 will begin in the new year. A new Construction Notification Bulletin will be distributed once schedules are confirmed. This revised date will not affect the overall construction schedule.

Drivers are advised to check the Drive BC and Gateway Program websites at www.drivebc.ca and www.gatewayprogram.bc.ca for up-to-date information on traffic and construction schedules.

Staying in Touch

A key goal of the Pitt River Bridge and Mary Hill Interchange Project is to manage traffic flow during construction to maximize predictability and minimize disruption to the travelling public, goods movers and marine users. Construction bulletins will be produced regularly to provide timely, accurate information as work continues.

If you have any questions or comments about the Gateway Program, Pitt River Bridge and Mary Hill Interchange Project or this bulletin, please contact our information line at 604-775-0471 or e-mail info@gatewayprogram.bc.ca.
